Habit: Mounding

Diseases: Root rot may occur with excessive soil moisture. Powdery mildew, rust, and leaf spots may occur.

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

Description

To infinity and beyond! A brand new variegated creation from Terra Nova. Very large, thick leathery foliage, very heavily variegated with spots of color on a very dark background. Leaves emerge a startling bright red, and turn darker as they age, the variegation on the other hand gets lighter colored and more noticeable as the season progresses. 'Galaxy' will love heat and humidity, but performs very well in cool climates too.
