Diseases: Root rot may occur with excessive soil moisture

Day Length for Flowering: Day Neutral

Do NOT bury the crown of the plug

Description

A five alarm version of the immensely popular Heuchera 'Autumn Leaves'. Super vigorous, thick, leathery red leaves pile up into a delightful mound of "Look at Me!" 'Fire Alarm' changes colors throughout the season. 'Fire Alarm' complements almost every section of the color palette, and of course it can stand on its own without question.
