Habit: Mounding

Diseases: Root rot may occur with excessive soil moisture. Powdery mildew, rust, and leaf spot may occur under ideal conditions.

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

Description

H. 'Glitter' not only has bright silver foliage, but it also has contrasting black veins that truly sparkle. The soft violet leaf back is as pretty as the top, but is rarely seen due to the ultra-compact habit of the plant. Rising above this silvery surprise are bunches of bouquet-type scapes holding flowers of exotic fuchsia-pink.
