Habit: Mounding

Diseases: Root rot may occur with excessive soil moisture. Powdery mildew, rust, and leaf spots may occur.

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

## Description

Very tangy, lime colored foliage in a tight mound – that's the tart part. The sweet part is the amazing bicolored cerise and pale pink colored flowers, held on wiry stems in great clusters. Only 5" tall, 8" wide with 8" tall, plentiful flower spikes. Oh WOW!
